

# International Society of Nephrology

## MEMBERSHIP

The ISN provides an international forum for the exchange of knowledge, best clinical practice, and research. Since it was founded in 1960, the Society has constantly made major contributions to the worldwide advancement of education, science, and patient care in nephrology.

The ISN's more than 7000 members include researchers and clinicians from over 100 countries involved in basic, translational, and applied science. Through this global network of professionals, the ISN is focused on designing programs that aim to understand and diagnose kidney disease and provide suitable treatment, either to prevent the disease or slow its progression.

Join the ISN today and become a member of the world's leading network of nephrologists. Membership includes a 1-year subscription to *Kidney International* and a number of other exclusive benefits.

For complete information relating to membership or any the ISN's programs and activities, please visit the Membership section of the ISN Web site at <http://www.isn-online.org> or by contacting the ISN Global Headquarters at Avenue des Gaulois, 7, B-1040, Brussels, Belgium. ## AWARDS AND GRANTS

### The Roscoe R. Robinson Award

The International Society of Nephrology is proud to announce the creation of a new award, the Roscoe R. Robinson Award, to be given for outstanding contributions in the field of education in nephrology and medicine.

This new award is being established in special recognition of the late Roscoe "Ike" R. Robinson, who was the founding editor of our Society journal, *Kidney International*, and who was also the great inspiration and driver of the International Society of Nephrology's current structure and overall programs.

To be presented for the first time during the World Congress of Nephrology in Singapore in June 2005, this award will complement the long-established J. Hamburger and A.N. Richards Awards, which recognize those who have made significant clinical and basic science contributions in nephrology, respectively. With the creation of the Roscoe R. Robinson Award, the International Society of Nephrology will be able honor not only nephrology colleagues for outstanding achievements in the field of education, but also scientists and

clinicians as well as non-medical persons outside of nephrology (e.g., the director of WHO or other health organizations, the editor of a major journal dedicated to advancement of health on an international scale, and colleagues working in related fields such as diabetes and hypertension).

The International Society of Nephrology invites you to send nominations for candidates before November 1, 2004 to Professor Jan J. Weening, ISN President, Department of Pathology AMC, P.O. Box 22660, 1100DD Amsterdam, The Netherlands, E-mail: [j.j.weening@amc.uva.nl](mailto:j.j.weening@amc.uva.nl)
